SKIING. SNOWBOARDING. SLEDDING. SIGHTSEEING. CHOOSE YOUR OWN EXPERIENCE!

In a country with a variety of seasonal delights, spanning from the Alps to the Adriatic, the Pannonian Plain to Central Slovenia with Ljubljana and the Mediterranean with the Karst, winter holds a special charm. Here you can choose your own winter experience!

You can indulge in **alpine skiing** among high peaks one day and go **cross-country skiing** for miles the next in an accessible mountain plateau or near the city. You can spend the day at an attractive **snowboarding venue**, and ride a **sled** down a snow-covered road from a high mountain pass in the evening. You can explore the Julian Alps on **touring skis** with a guide who knows the best and safest trails. Wearing **snowshoes**, you can venture out into the scenic snowy landscape and discover **ice climbing** on a frozen waterfall with professional climbers. You can stay in a friendly ski resort or choose from a **variety of accommodation options** nearby, including experiences such as spending the night in an igloo. In addition to skiing, other winter experiences and **sightseeing tours** await

you in a country acclaimed as the world's first green destination. Here everything is so close by!

Slovenia is also a country where you can marvel at the **achievements of top winter athletes**. Alpine Ski World Cup competitions and important international biathlon races take place here, while the world-renowned Planica is where ski jump records are broken.

The ski season in Slovenia runs from December to March, and sometimes even into May in the high ski resorts. Most pistes are located in smaller winter sports resorts, and are suitable for beginners and families. Here you can find winter challenges for **all ages!**

Slovenia's rich tradition and love for winter sports is reflected in the successful organization of many world and European sports events.

WHAT'S UP?

PLANICA

PLANICA HOSTING THE CROSS-COUNTRY SKIING WORLD CUP

Planica is perhaps the most famous for its ski jumping competitions, but it has always been a place with a spirit for all Nordic disciplines. Now that the new Nordic centre was built and Planica has applied as a candidate to organise the Nordic World Ski Championship in 2021, it is time for Planica to host the Cross-country Skiing World Cup competition. Everybody visiting this picturesque valley, which is particularly magnificent this time of year, will have the opportunity to watch exciting competitions in various cross-country skiing disciplines.

ROGLA WORLD CUP

SPORTS HOLIDAY AT ROGLA

In the idyllic environment of Zreško Pohorje, where winter has been generous with natural snow in recent years, lies Rogla, at an altitude of 1,517 metres. Diverse activities that take place on white slopes are additionally spiced up by international competitions. After hosting FIS Cross-country World Cup competitions in 2009 and 2011, Rogla also became known as a venue for the FIS Snowboarding World Cup competitions. During the Slovenian sports holiday, a diverse programme is carried out at Rogla with the FIS competition as a central event at which around 120 snowboarders from more than 20 countries worldwide measure

their skills against each other. An exciting competition at which the sizeable Slovenian team also competes, attracts several thousand visitors who come to watch the event on-site, while it is followed on TV by almost 20 million people globally.

LJUBNO OB SAVINJI

LJUBNO IS IN THE AIR

Ljubno lies halfway between Ljubljana and Maribor, in the upper Savinja Valley – the gateway to the beautiful Logar Valley. It is said to be the smallest place on Earth that hosts World Cup competitions. Almost every house takes part in preparing this annual event in this village by the Savinja River, where a colourful heritage of raftsmen and abundant hospitality can be found. No wonder the best women jumpers in the world feel at home here every year.

Ski jumping has been present in Ljubno since long before world-class jumpers started visiting.

Now that the entire world is watching ski jumps under the Rajhovka peak, the competition is a welcome awakening during winters that can often get grey and sleepy. When the rumbling of snow cannons starts echoing and bright spotlights are lit up in the Savina hamlet near Ljubno, excitement erupts.

GOLDEN FOX

Back in 1964, Pohorje and Maribor hosted the first Ladies' Alpine Ski World Cup. That was also the year the first Golden Fox was born on the "stara Fiska" slope. This trophy has been deeply anchored in the Slovenian sports consciousness as a synonym for first-class ladies' alpine skiing, which has also left an indelible mark in world skiing. Over and over again, Maribor witnessed the creation of history in Slovenian Alpine skiing. The great victories of Mateja Svet, Urška Hrovat and Tina Maze will and can never be forgotten.

Thanks to its excellent organisation, but even more so to the remarkable atmosphere created by several thousand fans at the foot of Pohorje every

year, the Maribor Ladies' Alpine Ski World Cup is firmly anchored at the top of world sports events. But the Golden Fox is more than just a sports event. It is also one of the biggest social events in the city along the Drava River, which turns into the top ski city in Slovenia every time it is taken over by the best world Alpine female skiers.

VITRANC TROPHY

55 YEARS OF THE VITRANC WORLD CUP

Some people are born important. Others become important when they create something unique, something no one else has achieved before them. The Vitranc Cup belongs to that second group! The spirit of sport constantly leads to new achievements. You need this ambition to be faster, better and to head towards new goals while you still have an opportunity. When you are overtaken, it is too late – from then on, it is all about survival. Out on

the slopes, everything lies below you. The entire valley seems to be in the palm of your hand. The best skiers in the world will try to find the fastest route to descend to the valley. In fact, they will free-fall down to the valley. Everything is icy; everything is ready for the race. On this type of ice and on a slope as steep as this, a new skiing technique can only be performed by the best skiers. After the slope is the "plain," as it is referred to by reporters during

Vitranc Cup broadcasts, it is followed by the last free-fall to the finish line. This is the Vitranc Trophy. During Vitranc Trophy week, the valley and surrounding peaks put on festive colours. This year, we are celebrating 55 years of the Vitranc Trophy. The pace of modern life is monstrous, leaving us almost no time to socialise, spend time with our friends, etc. We will do our best as long as we maintain ties that bring together only the best: Adelboden, Alta Badia, Åre, Cortina d'Ampezzo, Garmisch Partenkirchen, Kitzbühel, Kvitfjell, Lake Louise, Maribor, Schladming, Val d'Isère, Val Gardena, Wengen and Kranjska Gora are the members of the association of traditional organizers of Alpine skiing competitions for the World Cup – Club 5. This is the Vitranc Trophy. Come, join us and be our friends.

PLANICA – THE SKI-FLYING SPECTACLE

According to tradition, Planica hosts the FIS Ski Jumping World Cup finals. The best and most daring ski jumpers compete in two individual and one team competition on the renovated flying hill of the Gorišek brothers, where we witnessed 50 flights with distances over 220 metres in 2015, with an average flight distance of 209.5 metres. The breath-taking flights and the loudest fans are a guarantee for the famous superb atmosphere in the valley beneath the Ponce mountains, as it is visited by tens of thousands of people every year. Fierce fighting for the Great Crystal Globe, the rich side programme, the unique tradition of the venue and thrilled exclamations of visitors from around the world promise another spectacle in Planica.

ALPINE RACING, SKI JUMPING AND CROSS-COUNTRY SKIING. THIS IS TELEMARCK.

The Telemark World Cup is the youngest among the great competitions in Slovenia. Since 2015, Golte has been the venue of telemark skiers coming from 15 countries. The discipline with which competitors must master telemark skiing, ski jumping and the skating technique of cross-country skiing is very attractive for spectators. The competition is held on the Medvedjek ski slope with a magnificent view of the Kamnik-Savinja Alps. Telemark skiing is gaining recognition in Slovenia and our competitors,

who wish to hear loud support from their fans, are successful in the World Cup. The event can be watched from the Golte Hotel terrace or through live online broadcast.

SMALL LAND OF BIG EVENTS

Since 1991, when the first Biathlon World Cup competition was held there, competitors from all over the world have been gathering in the midst of snow-covered forests on the vast Pokljuka plateau. In 2009, Pokljuka was brought to life again with the newly-constructed biathlon centre and the central facility – the Center Hotel, which provides competitors and professional staff with direct access to the site. The Pokljuka Sports Centre, which is located halfway between Bled and Bohinj, caters to professional athletes as well as all other sports enthusiasts and those who merely want to fill their lungs with fresh Pokljuka air and enjoy in the embrace of nature.

SKI SCHOOL ASSOCIATION OF SLOVENIA

The Ski School Association of Slovenia is one of the commissions of the Ski Instructors and Trainers Association of Slovenia (SITAS) operating within the Ski Association of Slovenia.

Members of the Ski School Association of Slovenia include 15 active ski schools operating in nine Slovenian and two foreign ski resorts. In order to become members of the Association, these schools must comply with all professional, staff and organisational requirements regulated by the official Rules of the Ski School Association of Slovenia. Members of the Ski Association of Slovenia carry out their activities in accordance with the programme approved by the Council of Experts of the Ski Instructors and Trainers Association of Slovenia. Only ski instructors with a valid licence for the current season are allowed to carry out professional work in these schools. These professionals are mostly former competitors or graduates of the Faculty of Sports. In the 2014/2015 season, the total of 310 ski instructors working for members of the Ski School Association of Slovenia carried out approximately 150,000 pedagogical hours on the snow. They handled more than 52,000 course participants.

This is another reason to visit ski schools that are members of the Ski School Association of Slovenia.

SLOVENIAN SKI RESORTS

on the sunny side of the Alps

Krvavec is a mountain pasture with rich winter and summer tourist activities intended for active visitors and lovers of fresh mountain air and the Alpine environment. In wintertime Krvavec is one of the largest and most popular ski resorts in Slovenia. In summertime it transforms into a hospitable oasis for hikers and cyclists, while families prefer to choose the Summer Park that provides 10 outdoor activities.

KRVAVEC

A PERFECT WINTER EXPERIENCE

A ski resort that boasts the most magnificent views also offers perfectly maintained ski runs at altitudes between 1,450 and 1,971 m, providing perfect conditions for skiing on natural and compacted snow. With 30 kilometres of maintained ski runs, the resort guarantees 100 skiing days every season. The diverse ski runs of various degrees of difficulty are ideal for recreational and professional skiers as well as beginners. The varied additional activities for children that include a ski school, children's polygons, a kindergarten and rental of ski equipment attracts numerous families to Krvavec. The Krvavec ski resort is located in the heart of Slovenia in the municipality of Cerklje na Gorenjskem in the Kamnik-Savinja Alps. It is only 25 kilometres away from the capital of Ljubljana and is known as the closest ski resort to an international airport in Europe (Jože Pučnik, 8 km).

ADDITIONAL WINTER ACTIVITIES

A ski school (alpine skiing, carving, telemark, snowboarding), rental and service of ski equipment, a snow park, a polygon for beginners, a conveyor belt and a merry-go-round for children, a competition polygon, a ski run with electronic timing, a ski run with non-compacted snow, night sledding, snow biking, cloakroom, sauna in the Hotel Krvavec, restaurants and free parking. A hint: To enjoy a wonderful experience in the snow you don't even need your own ski equipment as our equipment rental services have everything to fit you from head to toe.

ACCOMMODATION

Accommodation availability in the region is excellent. Hotels and boarding houses in the ski resort (Hotel Krvavec^{***}, Apartment House Muštrinka, Penzion Tia, Koča Rozka, Planšarija Viženčar, Turistična kmetija Pr' Florjan) offer a real ski

experience. After a day of skiing, numerous visitors wish to experience the city beat, so they can visit the capital city of Ljubljana, the regional capital of Kranj or the magnificent tourist resort of Bled, none of which are far away from Krvavec. A pleasant atmosphere, great food and superb accommodation are also offered by numerous tourist facilities in the valley beneath the ski resort (Apartmaji Paula, Kmečki turizem Pr' Dovar, Turistična kmetija Pr' Ambružar, Hotel Silvester, Penzion Jagodic, Hostel Mama's house, Hotel Dvor Jezeršek, Sobe Jana, Penzion Domačija Vodnik, Apartmaji Krvavec, Penzion Zaplata, Gostišče Češnar, Hotel Bor, Terme Snovik, Hotel Creina, Hotel Actum, Hotel Azul, Hostel Cukrarna, Hotel Marinšek).

TWO RESORTS – ONE SKI PASS

The resorts of Rogla and Krvavec have been linked by a single ski pass for many years.

- Quick service of mountain bikes.

A summer and winter tourist resort in the north-western part of Slovenia, at the tripoint with Austria and Italy, reaches into Triglav National Park with its southern edge. The Kranjska gora cableways have the longest tradition in Slovenia.

KRANJSKA GORA

“KRANJSKA JE SANJSKA” (KRANJSKA IS DREAMY)

Being located just along the international road, the ski runs are easily accessible. Due to their low altitude, they have favourable weather and snow conditions. The ski slopes are appropriate for all kinds of skiers. Beginners and recreational skiers are invited to explore the slopes of Kranjska gora and Planica, while the ski run in Podkoren is more appropriate for skilled skiers. The latter also annually hosts World Cup competitions for the best skiers in the world.

Summer: summer sledding area, slide, cycling park, children’s cycling park, panoramic rides to the top of Vitranc, restaurant, excursion to Cipernik, the possibility of kiting from the top of Vitranc, the Bedanc Hut at the uppermost station of the Vitranc 1 ski lift, orientation theme park at the uppermost station of the Vitranc 1 ski lift.

Accommodation: hotels and private accommodation.

Event: annual slalom and giant slalom competition for the Vitranc Trophy.

Many high-quality ski equipment rental options at various locations in Kranjska Gora – ASK Kranjska Gora, Intersport Bernik, Kranjska Gora Ski School, Sport point Kranjska Gora, Kekec Ski School, etc.

At 1,517 metres above sea level, there is a whole different world. In summer, the healthy mountain forest climate never exceeds a pleasant 24 degrees Celsius. In winter, grassy plains and forests of mighty Pohorje spruce rest under a thick, fluffy carpet of snow.

ROGLA

FOR WINTER EXPERIENCES

In summer, the curious explore the Pohorje natural pearl, the Lovrenška jezera lakes, and deep Pohorje forests with giant anthills, carnivorous plants and shy deer hiding among the ferns. When the first snow falls, the fairy tale turns to adventures on a white, crunching blanket – on skis, on a board, in snowshoes, on the adrenaline sledding run or in winter hiking boots. Rogla is known as a diverse family ski resort with a renowned ski school, a children's snow park, night skiing and a mischievous but educational entertainment for little skiers. Its ski slopes also offer a pleasurable experience to more experienced skiers, even European cup and FIS World Cup competitors, in the sun or under the stars. Snowboarders and freestyle skiers can knock themselves out in the multiple-award-winning Rogla Fun park, while a paradise among snow covered

spruces awaits cross-country skiers in the Rogla Cross-country Skiing Centre. Two resorts – one ski pass: The resorts of Rogla and Krvavec have been linked by a single ski pass for many years. After our snow adventures, we can submerge into the world of wellness – at the “most popular hotel” in the 2014/2015 season according to the Skiarea Test, the Natura**** Hotel, which is also well-known for its delicious and healthy cuisine from the “wild garden.” We can also take a ski bus to the valley where we can enjoy warm thermal springs and the Sauna Village in the Terme Zreče spa resort. What about dinner? Pohorje chefs have no match.

The Cerkno Ski Centre, known as the most modern ski resort in Slovenia, lies at the point where the Gorenjska and Primorska regions meet.

CERKNO

WHERE WINTER BECOMES PLEASURE

The Centre boasts the fastest and most user-friendly ski lifts. Ski runs are suitable for skiers of all ages and skills. A well-maintained snow park and cross-country ski runs are also available within the ski resort.

The ski resort is located at the junction of three regions: Gorenjska, Primorska and Central Slovenia, 50 km from Ljubljana and 70 km from Nova Gorica. It stretches across 70 hectares of ski areas.

It is technically the most contemporary Slovenian resort, providing the following infrastructure:

- Two 6-chair lifts
- Two 4-chair lifts
- One double chair lift
- Two draglifts
- Two conveyor belts for beginners

The total length of maintained ski runs is 18 km, while there are also 5 km of cross-country ski runs that can be fully covered with artificial snow. The ski resort also provides a snow park for freestyle skiers and snowboarders. Organised ski school, ski service and ski equipment rental are also available.

A special feature of the ski resort is its ski kindergarten with a log cabin, maintained terrain and playground equipment for the youngest visitors. By offering entertainment and child care, we strive to be further recognised as a family-friendly ski resort.

At the top of the ski area you will find the Alpska perla lodge with six apartments (a total of 46 beds) and a self-service restaurant with a panoramic terrace, offering a variety of dishes based on local ingredients, all in a pleasant Alpine-style atmosphere.

In the town of Cerkno, 10 km from the resort, the Cerkno hotel offers 180 beds. The hotel complex also includes a covered pool (25 – 13 m) with 30°C thermal water, saunas, a fitness studio and a massage salon.

**POHORJE
JE ZAKON**

On the central ridge of the Pohorje massif, amidst forests, in winter or summer, you can visit the popular Mariborsko Pohorje sports and tourist centre. Despite its diverse tourist offer, Pohorje has managed to preserve all its splendour, numerous natural and cultural attractions and ethnological peculiarities.

MARIBORSKO POHORJE

POHORJE RULES!

Pohorje is a popular excursion and recreation area for all generations. On snow-covered slopes, cross-country ski runs and hiking trails you can meet snowboarders, hikers, mountaineers, mountain bikers, paragliders, horse lovers and adrenaline-craving adventurers.

One of the longest lit ski runs in Europe is located above Maribor, the second-largest Slovenian city.

You can take a city bus to the Pohorje funicular, a new cable car system!

Apart from skiing, you can also treat yourself to other special winter experiences, such as swinging on a giant swing offering a view of the city, winter horseback riding – trekking, snowshoeing, night sledding, and numerous entertainment shows.

MARIBORSKO POHORJE

POHORJE RESORT

The Golte tourist and recreation centre combines natural resources with a modern and diverse tourist offer throughout the year. At 1,410 metres above sea level, you will experience winter on family-friendly ski slopes and in the most modern hotel, to which you can be taken by the longest gondola lift in Slovenia. Skiers have been awarding Golte the title of the best ski resort in Slovenia for five consecutive years.

GOLTE

SEIZE THE DAY!

Ski runs in the Golte ski area are diverse. They stretch over 50 hectares of land at altitudes between 1,250 and 1,600 metres. Well over 15 km of ski runs are adapted to skiers of all types. The pleasure of skiing on wide and excellently maintained runs is reinforced by the views of the Kamnik-Savinja Alps and other nearby mountains.

During the winter season, the Golte-Beli zajec Ski School carries out varied programmes for children and youth who are just starting to learn the basics of skiing or those who are already at the competitive level. The offer also includes quick ski service

and rental of equipment needed for the slopes.

Cross-country skiers may test their skills on a ski run that starts at Stari Stani, whereas ski mountaineers may head down from Golte towards Smrekovec or Raduha. Snowshoe hikes around the hidden corners of the plateau are also organised.

After skiing, you can enjoy a rest and a snack in one of the ski area log cabins. Golte also boasts the new high-class Golte**** Hotel, which serves as the perfect getaway and place of relaxation thanks to its idyllic location by the ski area and its diverse offer. After day-long winter adventures in Golte you will

be able to indulge yourself in first-class relaxation wellness sessions, make the best use of modern fitness facilities, placidly leaf through literature kept in the mountain library, taste traditional dishes of the Upper Savinja valley in one of the hotel restaurants, or dedicate your time to other hotel activities. Entertainment for children is also available during the winter.

You can supplement your stay in Golte by visiting the magnificent Logar Valley, the Topolšica thermal spa or the nearby town of Velenje with the Coal Mining Museum of Slovenia.

The ski resort with a fantastic view of the Triglav mountain range offers everything a family needs on a day of skiing. A children's park, a mini free style park, a snowpark, an X run, excellently maintained ski runs of all difficulty levels, easily accessible freeride terrain as well as the longest ski run in Slovenia – the famous 7.5-km-long Žagarjev graben.

VOGEL

Vogel Ski Centre is the only high-altitude ski resort in Slovenia situated in the protected area of the Triglav National Park. The ride with the gondola cableway itself, which brings you to an altitude of 1,535 m, is thrilling. On clear days, the ride offers views of the misty Bohinj lake and the peaks of the Triglav mountain range illuminated by the morning sun. Meticulously maintained ski runs of various difficulty levels are suitable for beginners as well as experienced skiers, while the pleasure is reinforced by natural snow and the high-altitude climate.

THE GREEN VOGEL

The Vogel area is a high-altitude mountain pasture with exceptional flora and fauna. From spring through autumn it is an excellent starting point for

hiking tours and short walks during which autochthonous mountain flowers can be admired. Access is adjusted to persons with physical disabilities, while families with baby buggies also like to come and have a breath of fresh mountain air. Vogel also boasts a mountain bike park with downhill trails of various levels of difficulty. The newest mountain bikes are available for rental.

A ride with a panoramic gondola cableway and a four-seat ski lift to panoramic points of Vogel, paragliding, guided hiking tours, delicious food and beverages, comfortable accommodation, diverse activities and affordable prices will keep you entertained. You may experience an adventure that will leave behind many pleasant memories at any time.

VACATION IN BOHINJ

You can enjoy a mountain vacation in one of the cabins in the Alpine village of Vogel throughout the year: on the ski slopes in wintertime or listening to the tinkling of cow bells during the summer. In the Merjasec, Burja and Orlove Glave mountain huts and the Viharnik Inn, they will pamper you with original Bohinj cuisine.

The Bohinj area offers a wide selection of accommodation in the valley in which you can enjoy the pristine nature of Lake Bohinj.

VOGEL SKI CENTER

Smučišče v Triglavskem narodnem parku / Ski resort in the Triglav National Park
 Naj slovensko smučišče / Best Slovenian SKI Resort 2013/14, 2014/15

Kanin is the only Slovenian ski resort above 2,000 metres of altitude. The ski season on Kanin lasts from December to the May Day holidays. The ski resort is distinguished by its sunny position and dry snow. A magnificent view from the ski resort extends from the heart of the Alps to the Bay of Trieste.

KANIN – SELLA NEVEA

THE SKIING OF TWO COUNTRIES

The Kanin – Sella Nevea ski resort is the first international ski centre in the region. By connecting the infrastructure on the Prevala pass, ski resorts on the Slovenian and Italian sides became an international ski centre in the 2009/2010 season. On the ski slopes, which reach well over 2,000 metres above sea level, skiing is possible as late as until the May Day holidays. In the spring months, the sunny position, dry snow and magnificent views allow skiing to be combined with activities in the Soča river valley: adrenaline water experiences, cycling, hiking, golf and many other outdoor programmes.

Kanin is a true high-mountain ski resort, as the ski runs at this altitude never freeze up, but rather, for the most part of the winter, offer quality skiing on exclusively natural snow.

Kanin is located at the extreme south-eastern part of the Alpine mountain range, where it comes nearest to the Adriatic Sea. A special feature of the Kanin ski resort is its sunny position, which offers a unique view into the heart of the Alps on the east and the sea in the Bay of Trieste to the south.

Bovec, known for its wonderful Soča River, despite its modest altitude (483 m above sea level), is a true

Alpine centre. The surrounding mountains, with peaks exceeding 2,000 metres, give it a dynamic and dramatic appeal, while the valley that opens up towards the sea gives it a special charm and diversity, which can seldom be found anywhere else in the world. In the Bovec basin, the proximity to the Adriatic Sea is reflected in very mild winters, while Kanin, on the other hand, receives abundant snow – it is not unusual for the snow cover to exceed 10 metres high.

STARI VRH

A SKI RESORT FOR ALL GENERATIONS

The Stari vrh ski resort, which is located 35 km from Ljubljana, with its 55 hectares of diverse ski runs, offers unforgettable snowy pleasures to families, beginners and professional or skilled skiers, either by day or by night. In addition to extending the sports offer of the snow park, a night sledding run that is 2.5 km long and various events and competitions for all age categories of skiers, the ski resort also offers fun and action from night skiing, between 19:00 and 22:00. A new acquisition of the ski resort is a daytime sledding run for children in the snow park. Even if there is not enough natural snow, the ski resort operates without interruptions, because 95% of its area can be covered with artificial snow.

The offer also includes the Stari vrh ski school and ski equipment rental. Skiers can opt for favourable multi-day packages with accommodation at nearby farms and inns.

The heart of the Stari vrh ski resort is the heated six-chair lift, the only of its kind in Slovenia, complemented by three draglifts appropriate for beginners or more experienced skiers and a 62 m conveyor belt for the safe and carefree transport of the youngest skiers. The greatest attraction of the ski resort is night skiing every day from 19:00 to 22:00, night sledding, as mentioned earlier, also from 19:00 to 22:00, and an extended snow park for little skiers.

	Cross-country skiing		Free ride		RV parking		
	Sledging		Snowmobile		Hotel, apartment		
	Ice rink		Ski equipment rental and service		Bungalows		

In summer, ski resorts become an ideal hiking and cycling destination.

SUMMER ACTIVITIES

In ski centres, summertime is ideal for hiking and cycling. The centres maintain circular and more or less demanding hiking trails. Most centres are crossed by well-known long-distance trails, such as the oldest long-distance trail in Slovenia – the Slovenian Mountain Trail, the Via Alpina and the E6.

Some centres have modern bike parks suitable for average as well as experienced downhill cyclists. Cross country trails, fun trails and single trails enable cycling at the elevation of centres as well as downhill descents to the valleys. In these centres, cableway infrastructure runs throughout most of the year. Rental of bicycles and protective equipment is available at ski centres.

Licensed guides ensure safe hiking or cycling.

Most centres maintain paragliding launch sites that enable launching of individuals and tandems.

During summer months, many centres use water reservoirs intended for making artificial snow during the winter, for water activities and games.

Numerous cycling, hiking and other events in the centres supplement their summer activities, which provide a lively atmosphere and organised entertainment.
